### Article 24 Seeding

1. Would competitors please list their drivers best six results on forest stage events after 1st January 2016 on the entry form to assist with seeding. The organisers may use seeding information from other sources, in addition to the information supplied on the entry form, to verify competitors seeded position.

2. All Two wheel drive cars will run first on the road followed by four wheel drive cars. The order of starting all first time forest competitors will be strictly in order of receipt of entry.

3. PLEASE NOTE – The organisers will carry out seeding with the best information they have available, and while we hope this will be representative there will inevitably be people who are disappointed. If you feel strongly that there is a mistake with your seeding (i.e. you feel that you are more than 6 places above or below where your previous performances prove you should be seeded) then please contact the Clerk of the Course by e-mail stating where you feel you should be seeded and the reasons why. The organisers will then consider your request before making their final decision.

4. Re-seeding of late entries may be permitted on safety grounds.
